COMMENCEMENT OF DORLAND INSTITUTE

Hot Springs, N. C., May 21.—The Commencement Exercises of Dorland Institute, were held in the Dorland Memorial Presbyterian church, Thursday afternoon and night of last week. The program was most systematically arranged and was thoroughly enjoyed by the large crowd present. Space will not permit all the comment we could give of each one of the twenty four graduates in the class of 1911. However can say that each one who received their Diplomas, went out with merit to themselves, their parents and Dorland Institute. At first, we thought it strange to find so many young ladies and gentlemen from other States in attendance. Yet after having become acquainted with the management and the thorough introduction of the institution, we are not surprised to find so many matriculated from Cooke and Greene Counties in Tennessee, together with a still larger number from South Carolina.

The program, though it might seem lengthy was not wearisome and could have been enjoyed for several hours longer.

Yet they cost no more than the ordinary. The new browns and greys with penciled and broken stripes are especially fetching among the new 1911 weaves. The new soft front, long roll lapel English models are decidedly the smartest things we have seen or that have been brought out for seasons.
